

WHAT IS CLAIMED AS NEW AND DESIRED TO BE SECURED BY LETTERS
PATENT OF THE UNITED STATES IS:

1. An essentially pure noribogaine compound having the formula:

wherein R is hydrogen or a hydrolyzable group of the formula:

wherein X is an unsubstituted C₁-C₁₂ group or a C₁-C₁₂ group substituted by lower alkyl or lower alkoxy groups, wherein said noribogaine compound having said hydrolyzable group hydrolyses in vivo to form 12-hydroxy ibogamine.

2. The noribogaine compound of Claim 1, wherein X is C₁-C₆ group.
3. The noribogaine compound of Claim 2, wherein X is methyl or ethyl.
4. The noribogaine compound of Claim 1, wherein R is benzoyl.
5. The noribogaine compound of Claim 1, wherein R is hydrogen.
6. A pharmaceutical composition for treating chemical dependency in a mammal, which comprises:

10075915-021402
2004120-5T65001

a) an amount of one or more noribogaine compounds having the formula:

wherein R is hydrogen or a hydrolyzable group of the formula:

wherein X is an unsubstituted C₁-C₁₂ group or a C₁-C₁₂ group substituted by lower alkyl or lower alkoxy groups, effective to reduce craving for a chemical substance in said mammal, thereby treating the chemical dependency, and

b) a pharmaceutically acceptable excipient.

7. The pharmaceutical composition of Claim 6, wherein in said noribogaine compound, X is C₁-C₆ group.

8. The pharmaceutical composition of Claim 7, wherein X is methyl or ethyl.

9. The pharmaceutical composition of Claim 6, wherein R is benzoyl.

10. The pharmaceutical composition of Claim 6, wherein said R is hydrogen.

204426151514025

11. A method of treating chemical dependency in a mammal, which comprises administering to said mammal an amount of the noribogaine compound of Claim 1 or the pharmaceutical composition of Claim 6 effective to treat said chemical dependency.

12. The method of Claim 11, wherein said mammal is human.

13. The method of Claim 11, wherein said chemical dependency is to a substance selected from the group consisting of heroin, cocaine, alcohol, nicotine, amphetamine, methamphetamine, opium, methadone, hycodan, morphine and caffeine.

14. The method of Claim 11, wherein said noribogaine compound is 12-hydroxy ibogamine.

15. A method of treating addiction to a drug in a mammal in need thereof, which comprises administering to said mammal an amount of the noribogaine compound of Claim 1 or the pharmaceutical composition of Claim 6 effective to reduce craving or withdrawal symptoms or both for said drug.

16. The method of Claim 15, wherein said mammal is human.

17. The method of Claim 15, wherein said drug is selected from the group consisting of heroin, cocaine, methamphetamine, opium, methadone, hycodan, morphine, amphetamine, alcohol, caffeine and nicotine.

204720-5552001

18. The method of Claim 15, wherein withdrawal symptoms from the drug are reduced.
